

Refraction ABN

Note: You need to make a choice about receiving these health care items or services.

We expect that your insurance company will not pay for the item(s) or service(s) that are described below. Your Insurance Company does not pay for all of your health care costs. Your Insurance Company only pays for covered items and services when your insurance company's rules are met. The fact that your insurance company may not pay for a particular item or service does not mean that you should not receive it. **There may be a good reason your doctor recommended it. Right now, in your case, your Insurance Company probably will not pay for the Refraction because it is a non-covered service and considered to be routine vision.**

The purpose of this form is to help you make an informed choice about whether or not you want to receive these items or services, knowing that you might have to pay for them yourself. **Before you make a decision about your options, you should read this entire notice carefully.**

Refraction is the process of the doctor checking you for a glasses or contact lens prescription. Medical insurances do not cover this charge because it is considered to be routine vision and not medically necessary.

The charge of \$20.00 is due at the time of service.
